

ACTIVITIES REPORT

In accordance with the schedule for reporting the activities that we carry out, hereby we sent a report on the service activities that we carry out at the Lima Roti Dua Ikan Indonesia foundation.

We are very grateful that the Covid-19 pandemic that had hit Indonesia since 2020 has decreased a lot, and now we can do all service activities again.

The report that we are sending to you at this time is different from the report format that was previously given to us. Because in this report we will provide a report about our new free education service in Kampung Kandang that we have started since October 2021.

Meeting with the person in charge of Kampung Kandang to ask for permission to start free tutoring activities for learning to read and write and speak English

This new free education service is called Kampung Kandang which is located right next to Artha Gading Mall Kelapa Gading. This location is a slum area because many of their residential buildings are unfit for habitation. Most of the people who live here are scavengers, buskers, laborers and irregular jobs.

Condition at Kampung Kandang

Activities For Children

The targets of our service activities in this place are children. When we started educational activities here, we found a very sad fact due to the corona pandemic on children from these poor families.

During the COVID-19 pandemic, formal education activities at schools are carried out online (Distance Education) using computers or cellphones and must also have an internet network, while children from these poor families have absolutely no device for them to take part in learning from school. As a result, what we found in Kampung Kandang Children aged 7-10 years (Grades 1-4 SD) still cannot read and many cannot recognize letters.

That's why we focus on helping these children in their primary education.

To attract the hearts of these children to want to learn, at the end of the lesson we give them snacks

Activity time

We still do this tutoring activity once a week, which is every Friday. Because the room we rent is very small, our tutoring activities are divided into 2 hours, namely:

- A. Hours 14:00-15:00 To learn to read and write
- B. 15:00-16:00 Learn English

The study room we rented was very small while the children were very enthusiastic about taking lessons

Miss Rossi teaches English

Miss Rossi teaches English

Mr. Deo teaching reading and writing

Miss Ceria teaching Math

Number of Children

The number of registered children so far is around 40 children, but 20 children are actively participating in each lesson.

Teacher Who Teaches

Currently there are 3 teachers who are active in teaching children in Kampung Kandang Life Center.

1. Miss Rossi
2. Miss Ceria
3. Mr. Deo
- 4.

Future Hope

1. We plan to increase the number of meeting days atleast 2 times a week.
2. We hope, we can rent rent bigger room, so that children's activities are better.

This is the report that we can send to you to report our activities. Thank you very much for your support and assistance to our mission.

God Bless you always.

Warm Regard.
Sudiharjono Simanungkalit
